An ordered method of putting sentences into sandhi

1)   Identify which sound is facing which sound

2)   Ask which type of sandhi applies – vowel, consonant, visarga or no sandhi.

3)   If it is vowel or consonant sandhi, choose the rule and apply.

4)   If it is visarga sandhi, ask

'Is the visarga followed by a hard consonant (*khar*)?' If it is, then apply the *khar* process.

If the visarga is not followed by a *khar*, decide which of the other 3 processes is applicable.
